CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—have removed all remaining doubt as to the inestimable value of This Discovery.—*Consumption is no longer to be regarded as an incurable malady.*

Many hundreds of physicians have already adopted this treatment with almost invariable success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I KNOW that they will prove not only

As Sure Remedy in Consumption as Quinine is in Intermittent Fever; but also as Efficient a Preservative, as Vaccination is in Small Pox.

"*In no instance have I found the remedy fail to produce everything that could reasonably be expected from it.*

"Out of twenty-two cases in the third or last stage, treated at my Dispensary, during the past year, eight have completely recovered, eight have died, and six are still under treatment. *Such a result is altogether unparalleled in the annals of Medicine.*"

☞ This Remedy is the most powerful promoter of blood-tonics, and invaluably efficacious in all forms of Debility, Asthma, Bronchitis, Nervous Disease, Chlorosis, Dyspepsia,—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a fac-simile signature.

☞ No other can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

☞ Price, $1,00, or three bottles for $2,50, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. Single bottles in concentrated solution, sent by mail, when especially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., 49 John Street. Let no one doubt, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S., on receipt of letter enclosing [illegible] stamps to cover expense of postage. Also, circulars and all requisite information without charge. Let no one delay, the time is precious in so fatal a malady as consumption. Address,

The Armstice.

The intelligence from Europe yesterday by the North Briton presents the peace question in a double-and-twisted aspect.—It would seem that the Armistice is to result in something more than a temporary cessation of hostilities between France and Austria—if indeed the terms of peace between these two powers are not already settled. If it should result that they have concluded a peace the terms of which will be unsatisfactory to England, and that united, they will seek the subjugation of that Government, it will be a dear bought peace to the world.

With reference to the Armistice the Albany Atlas and Argus says:

"One of the apprehensions of England was that Napoleon would make a rapid campaign, a generous peace, a firm alliance with Austria, and would then turn his face towards England, strengthened by the alliance of all Continental Europe. If there is any groundwork for this fear, Prussia may share it.

These apprehensions and pertubations are natural. It is in vain that a voice from the French throne cries out "be not afraid; it is I!" The words are full of assurance; but the nations look up, and behold it issuing from the inscrutable countenance and Mephistophaleon lips of him who but a while ago proclaimed his Empire to be that of peace, and who has never spoken except to deceive.

But even as we write, the intelligence comes that this war of false pretences had ended; that the temporary truce is changed into a permanent peace; that Napoleon and Joseph are allies. Europe will look on with fresh wonder for the next step in this drama!"

Old Books.

The Buffalo Express on old coins and old books says, "we were a few days since shown by John Howcutt, Esq., three very old books, in his possession. The first is a large Dictionary of Law Terms, first published in 1684, an edition of Livy of 1684, and the other a copy of the Laws of Edward the Fourth, of England, published in 1556. Another friend of ours has in his library "Boerhave's Treatise on the Powers of Medicine," published in 1740. This has some queer things of interest to the Doctors.

We think it would be interesting to the public to know what treasures of this kind our city holds, and we would suggest to the possessors of very old books the propriety of letting their good fortune be known. Who have the oldest MSS. and printed volumes in the city?"

If the editor of the Express will take a look out here, we will show him a work on Physiology and Pathology, Published in 1592; two hundred and sixty seven years ago. The "Aphorisms of Hippocrates," and also of Celsus, with portraits, published in 1708, a very rare and curious book. "Culpeppers Materia Medica," the first work of the kind ever published.—"Harvey's Lectures," demonstrating the circulation of the Blood, as originally delived by him in London. The writings of Joannes, Baptistæ Morgagni, with a portrait, 1761, (folio) Albini's Anatomy with fine steel engravings and title page printed in colors, 1764, (folio). Hippocrates Great work on Medicine, printed by Froben, 804 pages exclusive of voluminous index, published at Basle in 1558, three hundred and one years ago, (folio). A volume of Comedies, with title page printed in colors, 1738. This book was once the property of James Hunter of London and bears his private stamp (James Hunter, December 3d 1767) on a blank leaf. A "Treatise on the three digestions of the human body," by Edward Barry, in English, 1759. "The Medical works of Richard Mead," English copy, 1767, with engravings, containing a treatise on the "Plague," "influence of the Sun and Moon on Diseases" etc. etc.

Correspondence of the Herald.

A Trip to Michigan.

FRIEND McWAIN—

Dear Sir:—I write you from the southern and western bounds of Michigan; a distance from Batavia of about 350 miles, having been brought here by the iron horse in about 16 hours. Making but short halts at Buffalo and at a few intermediate stations between there and Cleveland, Ohio; where we took the Cleveland and Toledo Railroa; and soon by the stalwart strength of the restless puffing and steaming charger, we were again "running like lightning" over that fair country to Toledo, a distance of 112 miles. With the exception of a few lengthened black ash swamps, as we gazed from the open car windows, our eyes were feasted with the rich and increasing growth of the many products of the Farmer, as they stood growing and waving in their own majesty, upon the well cultivated fields, that dot, for the most part, this fair country. The corn crop, throughout this section is as high as your head; and all tasseled out and silking. The country presents a richness not unlike our own new bottom lands; and is capable of producing everything grown in this climate. The crops for the most part of the way from Cleveland to Toledo, and from Toledo to Hudson, Michigan, are at least a month in advance of our own. The oat crop is very abundant, and every where looks fine, and in many places being harvested. We saw but few fields of wheat on our way from Cleveland to Toledo, but oats and corn, potatoes and barley, and we were told sugar-cane—which, if we were rightly instructed, was of a lighter green than the corn, and in no possible sense had kept pace in its growth with the corn—but we were assured it was doing well, it being slower in its growth.

From Toledo to Hudson, a distance of 50 miles, we saw considerable wheat, as well as corn, oats, barley and other products, which seemed to hold out the promise, that plenty would crown the labors of the Farmer as the reward of his industry. The farms throughout this line of our journey look as if they were well husbanded and tilled to the best advantage by their occupants. The wheat and the oat crop are being harvested; and we are told that new wheat is already in the market from many parts of the State; and that the weavil has done but very little damage this year.

The grass in many parts of Michigan is good, though in this section they tell me they are only getting about half a crop or about one-half as much as they were enabled to cut last year. The frost of June and July also snapped his fingers here, giving his blight to many green leaves, tender plants, and budding fruit, but with less venom, far, than with us. But the Heavens have withheld their genial showers and the hot sun of this clime has parched the earth, and withered the grass, and dried up the streams and the wells; and drouth is fairly on them. The heavy dews alone, that begin to fall as the sun sinks away from the view, moistens the herbage and the grass—but as he peers up again from the east, he soon licks the dewy leaf, and drinks the moisture away from the thirsty land, and the pastures look barren and dry, while the cattle look gaunt, and lee amid the famine that their enclosures every where presents. A good soaking rain would be worth millions of dollars to this portion of Michigan to-day. May the heavens soon bend in mercy over them, and the lapped waters from the great deeps around this State be generously returned by the dripping clouds that have parted and fled, and wasted themselves elsewhere. Yours Truly

D.

Rollin, Mich., July 22d, '59.

BLONDIN.—Had the newspaper press devoted as much space and made as frequent mention of some worthy object as it has of the exploits of this adventurer, a great good might have been developed for somebody, but as it is, the sum total is only—nothing.

PREMIUM.—The Editor of the Rural New Yorker, offers a Premium of $100 for the best ten acres of wheat harvested next summer, in this State.

Before you commit suicide take a bath. What people term despair is often dirt.

Rochester is again afflicted with incendiaries. On Sunday night no less than three fires occurred, two of which were supposed to be the work of the distructionist, doing damages to the amount of about twenty thousand dollars on buildings and merchandise.

The Buffalo Commercial says that about a week ago a German girl, fourteen years old, in that city, named Maurer, swallowed twenty-two needles. Dr. Stock was called and perscribed for her. The whole number passed through the process of digestion in a few days. What a stomach!

Passed through the bowels you mean, your refinement is vulgarity and spoils a fact, and tells a lie. Needles don't digest.

A writer in All the Year Round describes gout thus: Put your toe in the vice; turn the screw till you can bear the pain no longer, that's rheumatism. Give the screw one more turn—that's gout.

The above is the wit of the great London Surgeon, Abernathy who died in the early part of the present century.

The Tribune says that "Wednesday morning the tunnel of the Long Dock (Erie R. R.) Company was opened from end to end, letting daylight in upon the prospects of the Road as well as upon the workmen. The headings being through, the rest of the excavation can soon be made. Four months should see it done, and certainly by January cars should unload upon the margin of the river.

A man in active life requires 36 ounces solid food per day—say 9 ounces of animal and 27 ounces of vegetable—according to established scales of diet in the English and French army and navy regulations. Of food and drink, a man will consume about 1,500 pounds a year. Of course, many persons consume much more food, but this is the average estimate.

LEAVENWORTH, K. T., July 25.

Dr. Day, under sentence in St. Joseph jail for an alleged kidnapping was rescued Sunday morning during a violent storm, and is still at large. Great excitement prevailed at St. Joseph on the announcement of his escape, and a pursuit was attempted but without success.

John Cobb, a young man of 18 was hung at Atlanta, Ga., lately, for shooting a wealthy libertine who had seduced his sister. Cobb was convicted and sentenced last year, but the feeling in his behalf was so strong that Gov. Ellis was induced to reprieve him for twelve months.

The Schenectady Star says: "We have heard it rumored that the Hon. Daniel E. Sickles is negotiating for the purchase of the residence of a certain legal gentleman in this city, with the view to take up his residence here."

SWIMMING THE NIAGARA.—A young man named Ford, a printer, swam the Niagara River below the falls on Thursday, and received a prize of $10. Two others went with him just for sport.

In the "theatre of war," says an exchange, it is desirable to take back seats. And yet how many pay dearly for a place in the pit.

HOW ITALY HAS BEEN GOVERNED.—The following item, which we cut from a contemporary, will serve to give an idea of the oppression which the wretched people of Italy have had to endure. Is it any wonder that they are goaded to madness, when, in addition to all their other burthens, every twenty families are compelled to support a Priest? If ever a country suffered from too much government that country is Italy:

The Italian states number about 27,500,000 inhabitants. The entire population, if we except 40,000 other Christians and 50,000 Jews is Roman Catholic There are 110 provinces, 10,102 communes, and nearly as many bishoprics as towns are in all the rest of Europe. The clergy regular and secular, of both sexes, amount to 189,000, and as compared with the inhabitants, they are in the ratio of 1 to 142 In the Roman States there is 1 bishop for every 400,000 souls.

THE MICHIGAN WHEAT CROP.—In 1850 Ohio raised, according to the United States Census, 14,487,000 bushels wheat, and Michigan in the same year, 4,926,000. The crop of the present season in Ohio is estimated at 26,000,000 bushels, which would give Michigan about 9,000,000 bushels at the same ratio of increase.—Considering that Ohio suffered much more severely by the late frosts than Michigan did, these figures cannot be an over estimate. The reason of our taking Ohio as the standard of comparison is, that besides joining Michigan and greatly resembling it in many respects, in that State the operations of their statistical bureau furnish better data for estimates than any other. Calling the population of Michigan 800,000, and allowing five bushels to each individual and 500,000 bushels for seed, we shall still have a surplus of 4,500,000 bushels for export.

A Bogus Marriage.

IMPOSITION UPON A RESPECTABLE GIRL.—The Albany Times gives the particulars of an infamous imposition perpetrated upon a young lady in that city.—The *dramatic persona* are a young law student from the East, of highly respectable and wealthy connections, a clerk in a hotel a third party whose occupation is unknown, and two young ladies, milliners by trade, of correct life and respectable connections, the young student became acquainted with, and as he pretended, enamored of one of the young ladies.—Some days since it was agreed to consummate the nuptials. All the parties alluded to joined in the occasion. The place selected for the wedding was Troy. To the St. Charles Hotel in that city, all the parties repaired.—The third gentleman spoken of represented the character of a Notary Public or Commissioner of Deeds, and as such claimed to be authorized to perform the ceremony, a belief in the validity of which claim was easily imposed upon a young and artless girl. The wedding being concluded, the parties returned to Albany, and the wedded pair at once entered upon their honeymoon.

A few days since the bridegroom left the city, as he said, to visit his parents and home. The wife remained to await his return, when he was to take her thither.—Since then nothing has been heard of him.—The suspicions of the wife are aroused as well they may be. She already has become conscious of some of the imposition practised upon her, and fears that in every respect she has been abused and deceived. If, as there is now every reason to believe a base fraud has been practiced upon her, what punishment should be measured out to the villains who have been parties to it?

"Pray, don't attempt to darn your cobwebs," was Swift's advice to a gentleman of strong imagination and week memory, who was laboriously explaining himself.

THE GREAT REPUBLIC MONTHLY for August is out.

SEE advertisement of T. J. Stephenson in another column.

LET US HAVE WATER.—It has been suggested to us that an Artisian well sunk in the hill north of this village would supply water sufficient for the wants of this village. Is the experiment worth trying?

IMPROVEMENTS.—The Western Hotel is having a new story added to give more room for the increasing business which that house is receiving. We are glad to chronicle the prosperity of MR. NORTON the worthy proprietor, which requires him to tear down and build bigger.

ACCIDENT.—A Mr. Hubbard of Albion accompanied by his wife, while coming into this village this morning, his horse took fright in crossing the Railroad track and run, throwing them both out, injuring Mr. H. somewhat about the head and face, but not dangerously. The Buggy was stove, and the horse escaped.

We are indebted to the publisher, H. W. D. Brewster, of Rochester, for a consolidation time table of the New York Central Railroad. It contains valuable miscellaneous matter, pertaining to the Central Railroad and all its branches, both by rail and steamboat.

CROCKERY STORE.

Richard King, Jr.,

Has the pleasure to announce to his friends and the Public that he has just returned from New York after having purchased an unusual and complete assortment of

Crockery and China Ware,

and he is now enabled to offer you *greater Bargains, and stronger inducements than ever before* since he has been engaged in this business—and he pledges himself *not to be undersold by any* firm in Western New York, not excepting Rochester or Buffalo. He would invite your attention to his

General Assortment,

at your earliest convenience, and would assure you that his prices cannot fail of suiting the closest buyers.

He has for your inspection, in great variety,

Crockery,

China, Plated, Britannia,

and Glass-Ware, Table Cutlery, Looking-Glasses, Tea Boards, Kerosene, Fluid, and Oil Lamps.

He has a large assortment of *German and French* HOLIDAY PRESENTS, to suit all tastes and fancies at prices much below the usual rates. STONE CHINA, he has three new and complete patterns, of superior quality, consisting of 56 Pieces, for $2 75. Also, Pale and Flowing Blue, C. C. and Blue Edge Ware. In short, he has a good assortment of almost every thing you can possibly desire. Band, White and Decorated French China in setts, or pieces to suit customers, at prices varying from $8 to $50. In GLASS-WARE, he defies competition; making his purchases at the Factories, he is enabled even to supply the general dealer.

Looking-Glasses,

a large variety, which he will sell lower than city prices, as can be testified to by many buyers who have purchased. *Tea Boards*, of different varieties, of beautiful designs and styles, from the cheapest to the most elaborate of the kind. His *Plated and Britannia Ware*, need only be seen and prices given, to convince any one that his Store is the place to obtain such articles as you want in his line, at a true LIVING COST.

CONFECTIONERY.

PAUL ZALA

HAS NOW RE-FITTED IN A VERY splendid manner the SALOON next door east of Mrs Denslow's Millinery Store, where he will prosecute the above business in all its branches.

He will keep a general assortment of Toilet and Fancy work, and execute to order such candies and ornamental designs as is demanded for parties of pleasure and Festivals generally.

He flatters himself that his mechanical ingenuity, and long experience in his business will enable him to give to all general satisfaction.—Having been to much expense in getting his Establishment in readiness, and making his place attractive—he earnestly solicits a liberal patronage from the town and country.

He will also keep Ice Cream flavored to the taste of the most devout epicure—and hold himself in readiness to entertain his customers with the luxuries of his Saloon; and to make his place a *fashionable* resort to all who desire delectation.

Two hundred soldiers, fifty of whom were Swiss, revolted on the 7th at Naples, and left Port Carmish for the purpose of arousing other troops to revolt, in which they failed.

On arriving at the Chap de Mars, all the Swiss and native troops who remained faithful, met them with a discharge of artillery, and forty insurgents were killed and disabled.

The Turkish steamers Ollistria and Kars are reported lost—the former with 350 passengers for Constantinople, 77 of whom perished.

The Turkish crew assasinated and plundered the christians during the salvage.

The Kars had 300 passengers from Constantinople, and had not been heard of.

The Persians were said to be actively preparing in anticipation of war with Turkey.

INDIA AND CHINA.

The Calcutta mails of June 3d, and Hong Kong of May 21st, had reached England.

The Indian government was said to have decided to permit all European troops who might desire to receive their discharge and a free passage to great Britain, thus removing all ground for complaint.

It was expected that thousands would avail themselves of the offer. The Rebel force was gradually diminishing.

WASHINGTON, July 25.

From information recently received in this city, it appears that some of the Southern Representatives, while claiming to be opposed to the re-opening of the African slave trade, pledging themselves to introduce in Congress a bill repealing all the statutes upon the subject, leaving it, as they profess to desire, to the regulation of the several States, as the Constitution confers on Congress the power to prohibit the trade, and as death seems to be regarded as too severe a penalty for violating what some consider merely a law regulating commerce, it is thought that others who are opposed to the slave trade will agree upon a measure with a view to make the prohibition and abolition more effective by the certainty of punishment otherwise than capital, and thus they think that good will result from the present agitation of the question.

DR. [illegible] NEW MEDICAL SALT.

For Inflammatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only.

DR. [illegible]'s NEW MEDICAL SALT [illegible] of its being a remedy for all ills, but [illegible] one ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, [illegible] or skin.

NEW MEDICAL SALT. Its peculiar excellence is that without the [illegible] loss of blood and strength, it [illegible] cures inflammatory diseases, [illegible] by producing an equilibrium of the fluids in the body, the want of which is the [illegible] cause of inflammation!

NOTICE TO INVALIDS! The following forms [illegible] the inflammatory fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, [illegible] of blood to Head and Chest, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Dyspepsia, Bronchitis, Pleurisy, Asthma, Cough, Dysentery, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. [illegible]'s NEW MEDICAL SALT does just what it claims to do—no more, no less—equalizes the fluids by removing from the system all material and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. [illegible]'s NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt.*

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*," is founded in truth, *for scrofula is a degeneration of the blood.* The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DR. JOHNSON'S HERB DISPENSARY!

OFFICE 95 MAIN STREET,

(*Corner, Up Stairs, Buffalo, N. Y.*)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhœa, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community, dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhœa or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of old School Doctors.

DR. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such that patients can be cured at their own homes without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $5 a series or Health Rules, and perfect chart of cure, which will be to them a lone polar star through life.
